PRESENT LAWS DO NOT CONTROL THE EVILS COMPLAINED OF.

He is Inclined to Believe That the Country is the Loser By Them-A Minister is ligged Out Under the Contract Latur Law While the Scalawag and Thief With Money is Welcome.

NEW YORK, March 19.—Collector Daniel Magone has very decided views on the subject of immigration, as I discovered in the course of an hour's conversation with him Sunday night at the Everett house

DANIEL MAGONE.

"That the present laws do not control the of is quite certain," said he, "and I am not certain that the country is not the loser by the Samoan conference. Just look at that contract labor law. We don't want any one to come bere and teach us; we know too much. But if a man is a regular scalawag and has got money to take care of himself for a while, he is welcome. You say the poor houses are filled with foreign paupers. What do you expect? Who is doing the hard manual labor in this country to-day! Americans! Not much. I believe in keeping out the criminal classes. Look out for them. They'll do more barm than contract laborers. I remember a while ago a glass blower came over here and his friends moved heaven and earth to get him landed. BIG SANDY, Mont., March 19.—This little ment of gold mine: in the Sweet Grass hills, fifty-five miles northwest of here, People have just arrived from the hills reporting that miners in Eclipse gulch are making from \$50 to \$80 a day. The most of the gold is taken out in the placer diggings, but blue ore has been struck by several parties in the hills, and the country is full of pros pectors from Helena and other mining distriefs. If the present rush continues straitened times must inevitably result, as men from all parts of Montana and Dakota are flocking here in great numbers without making adequate provision for subsistence.

> > A Discarded Princess. New York, March 19.—Many people were attracted to Chickering hall Sunday evening by an announcement that Mrs. Kent, or "the Princess Sophia Adelaide," would there make known the grounds for her claim to be the discarded daughter of Queen Victoria and the prince consort. Mrs. Kent was introduced by Dr. De Morgan, a gentleman prominent in British politics and journalism. He claimed that the princess was exchanged for a child of Albert's morganatic marriage, who was born a month before Queen Victoria's wedding. He claimed that Sophia was liberally supported from Queen Victoria's purse until John Brown, the royal gryvant, died, a short time ago.
